HMG Hotels takes great pride in its award-winning management, staff, and hotel operations and for nearly three decades has received a variety of prestigious hotel awards, by allied service providers.

HMG has been utilizing ATEL Hospitality Communications for their expertise and consulting in servicing many of our properties for Telecom, Systems, Voice, Data & Internet needs for the past 10-years.

ATEL has demonstrated their ability to provide us a high level of on-going support and follow up on multiple projects. Our Dedicated Account Manager – Dave Sugino has always been there for us.

I would recommend ATEL's services and consulting for any hotel or hotel Management Company.
